Tema Ghana

SUMMARY

Results-driven software developer with experience in designing, developing, and optimizing web applications. Skilled in backend and frontend development, API integrations, and automation. Excel in cross-functional teams to build efficient, user-friendly systems. Eager to learn from experienced professionals and continuously improve, with a strong problem-solving ability and a focus on workflow automation, and data-driven solutions.

SKILLS

- Soft skills: problem-solving, collaboration, technical documentation, training and support
- Backend and API Development: Python, Django, Django REST Framework, PHP
- Frontend Development: Vue.js, Next.js, Bootstrap, PrimeVue, Quasar
- Databases and Data Management: MySQL, SQLite

EXPERIENCE

NATIONAL SERVICE PERSON | 12/2022 to 12/2024 **Ghana Grid Company Limited - Tema, Ghana**

- Contributed to the development and deployment of the performance management system, collaborating with the team to implement features for performance planning, performance reviews, and 360-degree feedback to support a structured and comprehensive evaluation process.
- Assisted in enhancing and maintaining internal web applications, collaborating on backend development with Django and Django REST Framework, while also working on Vue.js and PrimeVue for the frontend.
- Worked closely with the QA team to ensure the quality and reliability of applications, assisting in test planning, identifying and resolving issues, and improving system performance before deployment.
- Helped develop and optimize RESTful APIs for data retrieval, authentication, and CRUD operations, ensuring secure and efficient communication between front-end and back-end systems.
- Provided training and support to employees in developing and managing their performance appraisal plans.
- Currently assisting in the development of a service management system for ticket handling, collaborating with the team to streamline issue tracking, automate escalations, and improve response times.
- Provided technical assistance to users, troubleshooting hardware and software issues, as well as offering support for internal applications to ensure smooth operations.
